

THE FOUNDATION OF Sleep!

EN

Base (Divan)

For an Ideal Sleep Quality, we need the following:

- A Base (Divan)
- A Mattress
- A Pillow

The perfect combination of these three components contributes to the absorption and elimination of all body pressures, always aiming at the preservation of the spinal cord at its right place. (see diagram)

The purchase of these components must always follow a proper trial with the assistance of a qualified Sleep Advisor.

Bases Sueno, Sonno, Sen

Uniform flat surface with independent springs

- Durable and Robust.
- When lying down, our body creates pressure points due to its weight. Once the function of the mattress springs and base (divan) are synchronized, however, the pressure points are absorbed, and weakened, before finally being eliminated.
- In combination with the independent springs of the Ypnos range mattresses, support and comfort are maximised.
- When lying down, our body creates pressure points due to its weight. Once the function of the mattress springs and base (divan) are synchronized, however, the pressure points are absorbed, and weakened, before finally being eliminated.
- Ideally combined with the **Ypnos Collection** Headboards.

Important: A uniform flat surface is necessary for the correct operation of the mattress.

* **Sueno** in Spanish means sleep, **Sonno** in Italian means Sleep, **Sen** in Polish means Sleep

Relax

Collection

Bases Sante, Swen

Uniform flat surface with homogeneous springs

- Durable and Robust
- Maximum pressure elimination, as it is absorbed into the divan where it weakens and disappears.
- Combined with the Relax range mattresses support and comfort are maximised.
- Ideally combined with the **Relax Collection** Headboards.

Important: A uniform flat surface is necessary for the correct operation of the mattress.

* **Sante** in French means health, **Swen** in Haitian Creole means care
